

CHEMISTRY PANEL (POC)

Collected on Jun 10, 2025 10:01 AM

Results

Hgb (POC)

Normal range: 13.0 - 17.0 gm/dL

This Hemoglobin result is a calculation based on the measured Hematocrit and assumes a normal MCHC (Mean Corpuscular Hemoglobin Concentration). This Hemoglobin result therefore loses accuracy by the degree to which the patient's actual MCHC varies from normal.

Calculated value, hemoglobin should be confirmed by direct measurement prior to treatment

Hct (POC)

Normal range: 40.0 - 54.0 %

Hematocrit should be confirmed by direct measurement of Hgb prior to treatment.

Sodium (POC)

Normal range: 135 - 146 mmol/L

Potassium (POC)

Normal range: 3.5 - 5.5 mmol/L

Performed on whole blood, unable to evaluate for hemolysis.

Chloride (POC)

Normal range: 99 - 109 mmol/L

Carbon Dioxide (POC)

Normal range: 20.0 - 31.0 mmol/L

Creat (POC)

Normal range: 0.5 - 1.2 mg/dL

Urea Nitrogen (POC)

Normal range: 9 - 23 mg/dL

Glucose (POC)

Normal range: 70 - 99 mg/dL

Ionized Ca (POC)

Normal range: 1.10 - 1.32 mmol/L

Ordering provider: Clairrose Retino, MD  
Collection date: Jun 10, 2025 10:01 AM

Specimens: Blood (BLOOD)

Result date: Jun 10, 2025 10:05 AM

Result status: Final
